The Love of Eating.

IS THE AMERICAN BECOMING A GOURMAND?

In our largest centers of population such as New York and Chicago, we daily see more attention given to the inner man. Cafes and lunch-rooms are filled with men and women who seem to give all their time and attention to thoughts of property or improperly feeding their stomachs. "It is of course best to eat slowly, but not too much," says Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. In this 20th century people devote so much time to head work that their brains are fatigued and there isn't sufficient blood left to properly take care of the other organs of the body. The stomach must be assisted in its hard work—the liver started into action—by the use of a good stomach tonic, which should be entirely of vegetable ingredients and without alcohol. After years of experience in an active practice, Dr. Pierce discovered a remedy that suited these conditions in a blood-maker and tissue-builder. He called it Dr. Pierce's Golden Medical Discovery—an alternative extract that assists in the digestion and assimilation of the food in the stomach—so that the blood gets what it needs for food and oxidation, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich, all the organs work without effort, and the body is like a perfect machine.

FREE! Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 3 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

SITUATION IN THE EAST.

That the Japanese are about to make an important movement in the vicinity of Yinkow and Niuchwang is apparent by advices from several sources. The Russian censors at Port Arthur and other points in the vicinity are not permitting information concerning the real situation to be made public.

A Japanese fleet variously estimated at 60 to 80 transports protected by warships has, according to reports, been seen heading for Yinkow, at the mouth of the Liao river. This is the port of Niuchwang, which is about 30 miles distant up the river. Yinkow, which is connected by rail with the Port Arthur branch of the Siberian Railroad, is the key to the Liao Valley. The possession of Yinkow by the Russians gives them for their fleet an excellent anchorage and a coaling station.

Its possession by the Japanese would secure them a base of operations within a day's march of the Port Arthur branch of the Siberian Railroad and only 150 miles from Moukden. Most important of all, it would force the Russian garrison at Port Arthur on its defenses and cause the isolation of that place.

A dispatch from St. Petersburg says the Japanese are preparing to cut the Russian line of communication along the peninsula of Liaotung at the same time that they cross the Yalu river.

A detachment of Russian troops which left southern Ussuri has reached Maershan, on the west bank of the Yalu river 175 miles north of Pingyang, without having encountered any of the enemy. The detachment has occupied a mountain pass between Manchuria and Korea, which it is fortifying with mountain batteries.

An official telegram states that there is no change in the situation on the Yalu river. The Russian outposts are now on islands of the river close to the Japanese outposts, which are preparing to retire, according to the Russian version.

Barring to avenge the loss of the battleship Petropavlovsk and other disasters there St. Petersburg government is showing feverish activity. The first of 14 new submarine boats was started for the far East yesterday. It is expected that all of them will be at Port Arthur by the middle of July.

The first connected account of the naval operations accompanying the loss of the Petropavlovsk is sent from Port Arthur by the Associated Press correspondent, who saw them. Vice-Admiral Makarov was at his post of duty on the sinking when the explosion came. The sinking of the vessel took place exactly in the manner predicted by Makarov in a supposition case which formed the subject of a lecture delivered by him in 1894.

The point is raised that the civilized nations may unite to put a limit on the use of mines as Vice-Admiral Togo used them at Port Arthur. It is stated by naval men that Cervera's fleet could have been blown to atoms at Santiago had Schley resorted to such methods.

Britain Demands Indemnity.

News has been received at Jamaica that the imperial government will demand, through the captain of the British cruiser Retribution, a heavy indemnity from the Nicaraguan government for the illegal seizure of the Cayman turtle fishermen ten miles beyond the limit, and also for the destruction of the fishermen's nets and other fishing gear and the brutal treatment of the crews, whom the Nicaraguan soldiers assaulted and then killed, leaving them for hours exposed to a broiling sun.

It was announced from Kingston April 5 that according to official dispatch six Cayman turtle schooners had been seized by the Nicaraguan government, and their crews arrested and conveyed to Gracias a Dios. Immediately on receipt of the news the Cayman commissioner forwarded a dispatch to the government at Kingston, and the latter communicated with the British foreign office on the subject.

A dispatch received from Kingston April 11 said that, acting under instructions from the imperial government, the British cruiser Retribution was proceeding to Bluefields in connection with the affair.

To prevent any possible misunderstanding, the British government, through its ambassador in Washington, has explained fully to the State Department the object of the dispatch of the British warship Retribution from Jamaica to the Mosquito coast of Nicaragua, and this explanation is said to be satisfactory. The British government is anxious to have the Nicaraguan government protect the Mosquito Indians, formerly under British protection, and also inquire into the claims of the captives of certain small turtle fishing vessels now detained at Bluefields that they have been wrongfully arrested.

A Great Satisfaction.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by E. S. MISS MONIE BOWEY, DETROIT, MICHIGAN.

No 38 Perry Street, DETROIT, MICHIGAN.

A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment.
